RE: Red Rock Mine Plan Review
S & S Mining Co.
Act/037/050
San Juan County, Utah

Dear Mr. Smith:

I'm apologetic on not returning this reply until now, but I did not receive your letter until January 4, 1983.

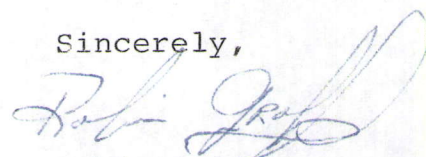

The people at S & S Mining have not been in town and did not pick up this letter until the aforementioned date. In the future if correspondence could be directed to my office at 128 East First North, Moab, Utah 84532, it would preclude this problem happening again.

As to your correspondence of December 20, 1982, we believe your conditions are reasonable and we will make every effort to comply with them and have this issue resolved by spring.

Currently the mine is on standby due to freezing weather conditions in the southern part of the state. This will change as weather conditions warm up.

We will keep you informed.

Sincerely,

Robin Groff
Consultant-S & S Mining
